

## COTTAGE and BUNKHOUSE

**The Cottage** is a very unique log home and dear to our hearts. It was the original cabin that we first built in the middle of our wooded lake view that we have come to love. It sits on the best view of the entire property, overlooking a 12 acre lake and is a short walk to the water frontage and dock area. There is plenty of private lake frontages for canoeing and fishing. We have also included a beautiful Pavilion that sits off into the woods overlooking the lake, for your relaxing escape. There are several picnic tables and an oversized fire pit along with a gas grill. All of the amenities are included inside The Cottage. You will find a futon couch that folds down into a full bed with a comfortable chair and a two person dinette. There is a small kitchen area with a sink, mid size refrigerator and microwave along with a very nice bathroom. There is a spacious attic loft that can easily sleep two adults and can be used to store your items. There is an air conditioner and ceiling fan to keep the cabin cool in the summer and an electric wood burner for the cold months.

It's the perfect get away for a small family with friends or that romantic weekend you have been longing for.

**The Bunk House** is a nice alternative for those that are not interested in setting up a tent. Presently The Bunk is set up to accommodate extra sleeping space when you are renting The Cottage. We will only rent the two together because of the limited access to restrooms. The Bunk house has 4 twin mattresses a chair and cooler. There are two windows with a ceiling fan for nice ventilation. The Bunk house has a window and a view of the 12 acre lake. You will find this cute little log home very cozy and accommodating for any overflow guests that will be joining you at The Cottage. You will need to bring your own bed rolls and pillows.
